1. What HRI Good Mood is and what it is used for

What HRI Good Mood is

This product is a traditional herbal medicinal product containing St John's Wort extract. Each film-coated tablet contains 334 mg of extract (as dry extract) from St John's Wort aerial parts (*Hypericum perforatum* L.) (5-7:1) (equivalent to 1670mg - 2338mg of St John's Wort). Extraction solvent: Ethanol 60% v/v.

What HRI Good Mood is used for

HRI GOOD MOOD is a traditional herbal medicinal product used to relieve the symptoms of slightly low mood and mild anxiety. This is based on traditional use only.

Suffering from depression?

Symptoms of depression include feelings of helplessness and hopelessness, loss of interest in daily activities, appetite or weight changes, sleep changes, loss of energy and difficulty concentrating, thoughts of self-harm or suicide. If your doctor has told you that you are suffering from depression, do not use this product. **If you think that you may be suffering from depression you should tell your doctor before taking this product.**

2. Before you take HRI Good Mood

× Do not take this product if:

- Your skin is **exceptionally sensitive to sunlight** (photosensitive)
- You are having **light treatment** (phototherapy) for any condition
- You are suffering from **depression** (see above)
- You are **pregnant or breastfeeding**
- You are allergic to any of the ingredients (see section 6)
- You are taking any of the medicines listed below
- You are due to have an operation in the next 10 days
- You are under the age of 18 years

While you are taking this product:

- avoid **excessive sunbathing** or the use of **sunbeds/solariums**
- stop using it at least **10 days prior to undergoing any surgery**

Driving and operating machinery

- × In rare cases St John's Wort may make you feel dizzy or sleepy. If affected do not drive or use machines.

Taking other medicines

St John's Wort can affect the way some medicines work and reduce their effectiveness. Medicines that can be affected by St John's Wort include prescription medicines, and those that you may have bought without a prescription.

Therefore it is important that you do not take St John's Wort if you are using any of the medicines in the following list.

All hormonal contraceptives: The birth control 'Pill', emergency contraception (also known as the morning after pill), hormonal implants, creams, patches, intra-uterine devices with hormones.
